

OVERHEAD DOORS TRAINING

OBJECTIVES

College Boréal and Nash Gil Doors have partnered to offer an Overhead Doors Training Program. This course will teach your employees how to identify different types of doors, find location of serial numbers, identify different parts and components, identify and service safety features and how to service and inspect doors in a safe manner. This training includes theory and hands-on and is offered on-site at Collège Boréal's Sudbury Campus.

OUTCOMES

- College Boreal Certificate of Achievement
- Certification cards
- Troubleshoot overhead doors mechanical issues
- Conduct repairs
- Troubleshoot overhead doors electrical issues
